

Don Viar
Managing Partner

Epic Technologies Invited to Participate at the 9th Annual TAG Convention

Don Viar, Managing Partner of Epic Technologies, to Share His Expertise to Top Business Communications Providers in the U.S. and Canada

COOKEVILLE, NASHVILLE, KNOXVILLE — February 3, 2009 — Epic Technologies, an industry leader in business communications, announced today that Technology Assurance Group (TAG), an association of independently owned voice and data providers representing close to \$400 million in annual sales, invited Don Viar, managing partner of Epic Technologies, to participate in the discussions on the state of the industry at its 9th Annual TAG Convention. The audience will consist of the most reputable and successful providers located throughout the United States and Canada. TAG's 2009 National Convention will be held on March 27th – 29th in San Diego, California.

The theme for the upcoming year's convention is "The Future Is in Leading Our Industry". The convergence of voice and data technology is forcing two separate industries to integrate and become one, offering a complete managed services solution. Traditional voice companies are adding data solutions to their repertoire of services, while traditional data VARs are offering voice solutions. Those organizations that are completely immersed in providing both resulting in a true managed services model will survive

and become the leaders of this new industry.

"It is an honor to share our knowledge and experiences in managed services to our colleagues," said Mr. Viar. "Managed services is going to greatly benefit small to medium sized businesses by helping to increase their profitability, improve productivity and give them a competitive advantage."

"The TAG Convention provides a unique opportunity where our member companies interact and learn better business practices from leading organizations," stated Dale Johnson, CEO of TAG. "Mr. Viar is well respected among his peers and his company is one of our premier members."

ABOUT EPIC TECHNOLOGIES

Epic Technologies is one of the leading providers of business communication solutions in the United States. Built upon a network of strategic relationships with clients and vendors, Epic has quickly grown to be a trusted business partner for complex voice, data, nurse call, and network infrastructure solutions. We build relationships as a trusted business partner with each of our clients and exceed their expectations, knowing that we will succeed when our partners succeed.

Epic knows how to empower complex business needs through the innovative use of technology to

maximize the return to the client's bottom line. While we work in a wide variety of industries and organizational sizes, we have a particular expertise in medium and larger sized organizations with a particular emphasis on healthcare, education, and service oriented companies. Call us today (866-525-EPIC) or visit us on the web at www.epictn.com and let us show you the Epic difference!
