## **EPIC TECHNOLOGIES OFFERS CUSTOMERS VIRTUAL HOSTED OFFICE SYSTEMS**

*Leading Unified Communications  
Provider Helps Customers Take  
Advantage of Cloud Based  
Technologies to Advance Their  
Business*

COOKEVILLE, NASHVILLE,  
KNOXVILLE – June 27, 2011 –  
Epic Technologies, an industry  
leader in unified communications,  
announced today that the  
company is providing its  
customers with Virtual Hosted  
Office systems designed to help  
small to mid-sized businesses take  
advantage of the latest in cloud-  
based technologies.

Cloud-based technologies are  
not only part of the future of  
technology, they have become an  
integral part of the present.  
Virtual Hosted Office systems  
provide secured access to  
company data and applications  
from anywhere in the world and  
small to mid-sized businesses are  
deploying this technology in order  
to remain competitive in today's  
economic environment. The  
driving forces behind this growth  
are increased profitability and  
enhanced IT infrastructure  
security.

“Many small to mid-sized  
businesses have absolutely no  
need for on-site servers, and they  
can just as easily be hosted in the

cloud for a fraction of the cost.  
Additionally, Virtual Hosted  
Office systems are continuously  
updated which provides dramatic  
cost savings over purchasing and  
repurchasing servers, comments  
Don Viar, Managing Partner of  
Epic Technologies. “Furthermore,  
these systems provide all  
hardware and operating system  
upgrades necessary for proper  
server upkeep, which translates  
into reduced costs for business  
owners.”

Virtual Hosted Office systems  
also bring an element of enhanced  
IT security to SMBs. Since  
systems are hosted off-site in  
multiple, excessively secure,  
“disaster-proof”, 24x7x365  
monitored, “bunker-style”  
facilities, companies are able to  
operate with much greater levels  
of security. In fact, Virtual Hosted  
Office Solutions are compliant  
with all HIPPA regulations,  
Sarbanes-Oxley and other  
security regulation laws as well.

Cloud-based technologies  
have revolutionized the way  
today's businesses function, and  
companies like Epic Technologies  
are adding value to their  
customers by introducing  
advanced technologies like  
Virtual Hosted Office systems.
